

WE ALL LAUGH IN THE SAME LANGUAGE

Language - the key to the world

Early language support for children between the ages 3 – 6 years

In small groups, the children learn to articulate themselves. The training includes a variety of activities in which the children learn to talk about specific topics such as food, family, arts and crafts, stories, movement and many more.

We support and assist the children in order to get them excited about learning the German language. Our goal is to create a learning experience for all senses.

For further information visit www.sprachfoerderung.ch or call me concerning a tryout lesson.

SPRACHFÖRDERUNG 
im Frühbereich

Early language support is the basis for the further education of your child.
